

Appln. No. 10/016,074
Amdt. date September 5, 2003
Reply to Office action of March 6, 2003

REMARKS/ARGUMENTS

The Office action dated March 6, 2003 has been reviewed and the comments therein carefully considered. In the Office action, various questions and issues are raised concerning the description of the new variety. By the accompanying Substitute Specification, Applicant has made a *bona fide* attempt to address each of the issues and questions with information available.

In view of the foregoing amendment and remarks, it is respectfully submitted that the application is now in condition for allowance and, accordingly, reconsideration and allowance are earnestly solicited. If any questions remain regarding the allowability of the application, the Examiner is invited to contact the undersigned at the telephone number indicated below.

Respectfully submitted,

CHRISTIE, PARKER & HALE, LLP

5 CLASSIFICATION

VARIETY DENOMINATION

10 CHERISE? '.

The present invention relates to a new and distinct variety of rose plant of the hybrid tea rose of the genus Rosaceae which was created by crossing as seed and pollen parents two (2) unknown rose varieties. The varietal denomination of the new variety is 'WHY NOT CHERISE?'.
15

20 Among the novel characteristics possessed by this new
variety which distinguishes it from other varieties of which I
am aware, is its dark orange-red flowers.

25 foregoing and other distinguishing characteristics come true to
form and are established and transmitted through succeeding
propagations.
